WHAT

HI GLOBAL REGISTRY

TIMELINE

- Project blueprint
- Expert Steering Committee review & recruitment
- Registry provider analysis
- CHI seed funding
- Community engagement
- Registry provider selection & contract

- Patient community engagement & recruitment
- Clinician engagement & promotion
- Researcher engagement & promotion
- Other collaborating parties engagement & promotion
- Multi-country recruitment

- Further research
- Partner developments
- Regulators & funders relationships
- Boards & committees
- Registry outcomes publications
- Registry developments
- Community engagement & retention
- Resource management
- Strategic planning

RESEARCH

2010 - 2013

- Rare disease patient registry review
- Rare disease registry assessment
- Adoption of natural history study (NHS) model
- Rare disease NHS registry commitment

2013 - 2015

CONCEPT DESIGN

SET UP

2015 - 2017

- Protocol development
- NHS registry data set
- Data management plan
- Communication plan & deliverables
- Registry design & configuration
- IRB approval
- Registry testing & training
- Funding analysis
- Partnership development
- Community engagement

2017 - 2018

LAUNCH

POST-LAUNCH

2018 -

LONG TERM

- Multi-country recruitment
- Data management
- Data reports, analysis & dissemination
- Clinical trial support services
- Research collaboration requests
- Governance board
- Registry committees
- Protocol amendments
- IRB submissions
- Fundraising & securing funding
- Community engagement & retention
- Resource management
- Secure HIGR funding

FUTURE

The HI Global Registry has many Global partners and is sponsored by

www.higlobalregistry.org

HI Global Registry

Patient-Powered Research for a Brighter Future!

Connection with truly global set of HI patients

**HI GLOBAL
REGISTRY**

Better awareness of available clinical trials
to get more participants involved

HI GLOBAL
REGISTRY

Fertile ground for identifying and
even performing future research

**HI GLOBAL
REGISTRY**

- Better understanding of how the whole community of HI patients is affected by the condition
- Individualized comparison of participant to the HI patient community
- Becoming part of the HI community
- Notification of new clinical studies
- Patient community driving change
- De-identified information shared with researchers dedicated to improving treatments and patient outcomes
